That "Bunty Pulls the Strings," which comes to the opera house to-morrow night, is what is known in theatrical parlance a big "repertoire" from the fact that it recently played a week's engagement at the Royal Alexandra theatre, Toronto, to nearly \$14,000.00, and made a return visit two weeks later to \$13,644.50, something unprecedented in Toronto theatricals. Wherever "Bunty" has made a return visit, it has equalled, and in many instances surpassed, the receipts of its previous visit.

The gas company paid as taxes to the city of Barre last year \$1,541.14. They now ask for a part of the city street lighting. The demonstration Saturday night was to give the aldermen and public a chance to judge of the relative cost and efficacy of gas and electric lighting. The 60 c. p. gas lamp will cost the city \$29.00 a year per lamp for all night and every night lighting. This compares favorably with electricity. Do you think that both companies should have a chance? If so, phone or call on your alderman and state your views. Do it now as the question will be settled in a few days.
